Project Proposal

APP-001 | SYNTHETIC RESTRICTED TEST DATA

Field	Value
Applicant	Green Earth Foundation
Project	Wetland Restoration - Riverbend
Requested grant	INR 2,500,000
Duration	18 months
Primary district	Riverbend

Executive Summary

This synthetic proposal seeks scheme assistance for a locally implemented environmental project. Outcomes will be tracked through baseline, midline and completion evidence.

Objectives

1. Improve environmental quality. 2. Establish measurable community benefits. 3. Produce auditable implementation evidence.

Implementation Plan

Mobilization, baseline assessment, procurement, field execution, monitoring, community validation and closure reporting.

Risk and Safeguards

Risks include seasonal delay, vendor dependency and data-quality gaps. Mitigations include milestone reviews and evidence checks.

Monitoring Indicators

Area restored, waste diverted, water conserved, native species survival rate and beneficiary coverage.
